

PORTLAND

People's Regional Opportunity Program has received a \$30,000 grant from U.S. Cellular to support its senior volunteer program.

In celebration of Earth Day, hundreds of U.S. Cellular associates volunteered with nonprofit organizations and schools to make communities a little greener.

Peggy Hills, a senior companion volunteer for PROP, received some help when Portland Mayor Jill Duson, U.S. Cellular associates and PROP volunteers cleared the debris from her yard. The volunteers from U.S. Cellular who helped clean up Hills' yard are part of the company's local business office and retail stores in Portland.
